

HEY AVTANSH,
GUESS HOOOOO
WILL MISS YOU?

Absolutely love how friendly and genuine you are. Really enjoyed working and discussing with you, all the best!
-Santanu Rathod

**THANKS FOR BEING MY
FIRST MENTOR IN MY JOB.
ALL THE BEST FOR YOUR
FUTURE ENDEAVOURS!**

- SACHIN KUMAR

Thanks for being so helpful at every
silly doubt :p, hope you have a
bright future ahead!! Good luck and
good wishes
- Sanchika

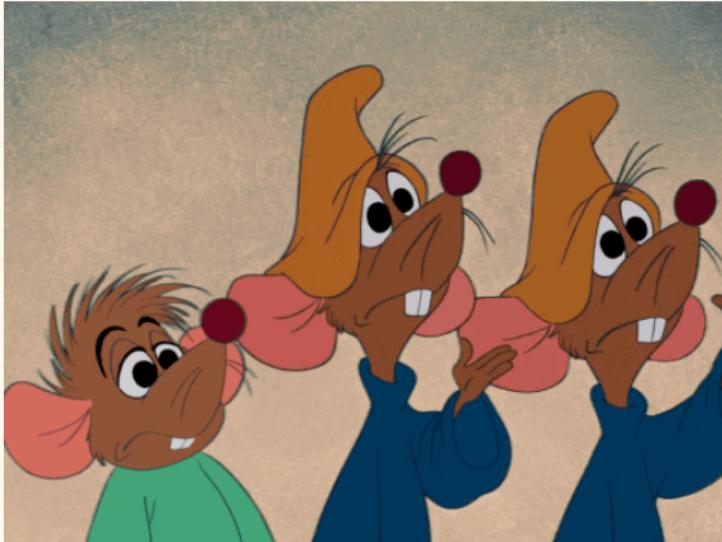

Buh Bye!

HEY AVTANSH

THE ONLY REGRET I HAVE IS HOW LATE WE GOT INTRODUCED TO EACH OTHER, BUT I'M SO GLAD THAT I GOT TO KNOW YOU! ALL THE BEST FOR THE NEXT ONE, AND HOPE TO SEE YOU AGAIN SOON, HOPEFULLY WE'LL COLLABORATE ON AN ML PROJECT TOO!

- ARSH

Yoo Avtansh! Enjoyed every bit of my time with you. From last day code edits to all night bakchodi, I am glad we had all these experiences together. All the best for your future endeavours.

Hope to work with you again!

- Jatin

Hey Avtansh! I had a great time working with you on the LPA project, and even more fun on our non-work outings :D Keep sending Mumbai (and maybe other city based) book recommendations! All the luck to you for your future, which I am sure is going to be extremely bright :)

- Deepashree

Avt, the short for Avtansh, was a sport. In the early days of LPA, circa March'21, Avtansh and Siddhant laid a solid foundation for LPA. First LPA model was out in three months. Since then, Avt donned many roles -- ML Scientist, ML Engineer, Data Analyst, Annotation Coach, Trainer, Dashboard Developer -- whatever the job required. He played a bridge role between ML and Engineering. In the last couple

of months, Avt implemented new methods for uncertainty quantification. Overall, Avt played an instrumental role in bringing LPA this far. All this, with a go-to, accommodating, and warmth attitude.

We wish you all the best Avt in your future endeavours, and we surely miss you.
- Soma Dhavala

Hi Avtansh You have been an amazing colleague and a great buddy!
We are all going to miss you a lot! We had a great time when we were
in our field visit! Do drop by whenever you are around. Wishing you
great success in your future. Keep in touch.

-Prasaanth

Hey Avtansh,

Man it was great working with you. You made my work so much easier all the time, just letting you know what is needed was enough and you would just keep it ready. Thanks for being so accommodating and also for occasionally teaching me the working of the model (really felt like an interesting story, very easy to follow). Also, our football and other random talks were amazing. I am glad I got to meet you in person (and got a chance to click this amazing pic XD). All the best for your future. I know with the dedication you have, you'll be thriving where ever you are. Will miss you.

-Niket

Hey Avtansh! Thank you for being a wonderful colleague and doing some amazing work in the institute. Best of luck for your future endeavours.

- Nakul

Hey Avtansh, Firstly congratulations on your new assignment. Secondly a big thank you for all the amazing versatility you brought to the LPA team. Soma rightly summarised the multitude of hats u were juggling. I feel like calling you the 'Liver of LPA solution':D You indeed put your heart in the project and demonstrated great degree of ownership be it a small ask or a big task. I haven't seen you shy away. Your patience was put to test with the annotations and GSD but u fared very well. This accommodative attitude of yours will take you to new heights Avtansh. Loved having you in the team. All the very best Avtansh.

Regards, Jk.

Hey Avtansh! I really loved being your mentee even if it was for a short period of time. You were super approachable even though I kept pestering you with my smallest of small doubts. When I joined, I was very nervous however you calmed and assured me. Thanks for all the little things you've done for me. I wish you all the very best for your future. Thanks for being an amazing mentor. Keep in touch. Will miss you!!

- Ankit

Hey Avtansh, We never got a chance to work together but our short interaction in Delhi TB-meet and Mumbai was fun and memorable. Wishing you all the best for your future endeavours.

- Aakash

Hello Avtansh. I quite enjoyed working with you on COVID uncertainty and was consistently impressed with your curiosity and ability to understand ideas and implement them. Discussions were always fun, too. Later, when we moved to different projects, it was always a lot of fun to catch up as the only two AMLS in Mumbai and chat about life and work. Those nights in Delhi and South Bombay were pretty special too :D Take care and I'm sure you'll do very well. Stay in touch!

- Mihir

Hey man!!

Really sad to see you go! I had a baller of a time working with you on covid modelling. Working with Ayush, Siddhant and you was such incredible amount of fun, and I learnt so so much!! I remember the crazy nights we pulled to get the KDD paper draft up and running. Fun, crazy times! By virtue of that time, I think we developed a very good friendship well beyond our working relationship. I really cherish that! The two days I got to spend with you for the workshop were an incredible amount of fun. Your offline personality is much more fun than your online one :p. Wish you all the best man!! I'm sure you'll do awesome at Microsoft and subsequently in your PhD program. Def keep in touch.

-Sansiddh

Hi Avtansh,

I really had an amazing time working with you on LPA, enjoyed every bit of work and random non-work conversations we had.

Thanks for being my unofficial mentor and go-to person for all my questions. I just regret that we met in-person very late, but hope we meet soon and more often in future :)

All the best for the next adventure and I know you'll do great wherever you go.

At last, thanks for being the amazing human you are :) I'll miss you a lot here.

- Mukul

Thank you and All the best from the whole LPA
and Wadhwani AI team.
